2019 Social Design Award
hosted by SPIEGEL WISSEN and SPIEGEL ONLINE

The contest conditions
"How do we want to live?" – that's the question of this year's Social Design Award hosted by SPIEGEL WISSEN and SPIEGEL ONLINE in cooperation with BAUHAUS. The award honors the best ideas for future-oriented living, in which new forms of habitation, architecture that facilitates togetherness or projects from neighbors who foster a sense of community, play a central role. We will select the best ideas and projects that embody future-oriented living. The contest is open to all concepts that fall under the category of "social design."
